PRESIDENT'S PROPOSED TRIF TO THE PACIFIC COAST.

veral Members of the Cabinet to Actempany Him-Ladies Will Probably be Excluded-The President's Mind Not Fully Made Up as to What Route He Will Take.

Washington, April 1.—The president, as now advised, will leave Washington on Wednesday, April 15, on his California trip. The party that will accompany him will be small and will probably include no ladies. Several members of the cabinet will be of the party, include a several members of the cabinet will be of the party, include a several members of the cabinet will be of the party. cluding Secretary Tracy, who will avail himself of the opportunity afforded by the trip to visit the Mare Island navy yard and the Union Iron works, at San Francisco, where several United States ressels are now in course of construction. The itinerary of the trip is not as yet mapped out, as the president will probably be away in all about six weeks. Numerous letters of inquiry as to what cities the president and party will pass through are being daily received at the through are being daily received at the executive mansion, but no replies can be made, as the president himself has not yet made up his mind as to the exact route he will take. At first he was inclined to stop at several southern cities on his way to California, but this part of the original programme may be abandoned, as he is urged to visit Oregon and Washington while out on the Pacific coast, and he fears he may not have time to tarry long in the south should he decide to go to the far northwest. Secrecide to go to the far northwest. tary Tracy is anxious to visit Puget sound and inspect the new government navy yard now being built there and may prevail upon the president, if there is not sufficient time for both, to curtail the time he originally expected to spend in the south

FOR CIGAR MANUFACTURERS.

New Regulations Established for the Manufacturers of Cigars.

Washington, April 1.—Commissioner Mason has issued a circular letter to collectors of internal revenue prohibiting the sale of tobacco stamps to manufactwrers of eigars. It says: "The practice of allowing cigar manufacturers to put up in packages their scraps, cuttings, clippings, etc., and attach thereto to-bacco stamps and place the same on the market as manufactured tobacco should be discontinued. Cigar manufacturers have no right to dispose of their scraps, cuttings, clippings, etc., in this manner. They may sell the same to a manufacturer of tobacco or to another cigar manufacturer, but not being manufacturers of tobacco themselves they cannot properly procure tobacco stamps. Coldectors of internal revenue are not per-mitted to sell tobacco stamps to a person who is a manufacturer of cigars only.

If cigar manufacturers desire to dispose of scraps, cuttings, clippings, etc., accumulating in their factories they will have to qualify as manufacturers of tobacco. They will not be permitted to carry on the business of manufacturer of cigars and manufacturer of tobacco in the same premises. As a different rule has obtained for many years you will notify manufacturers of cigars of this change. The regulations heretofore established upon this subject and con-tained in series 7, No. 8, and the tax manual for cigar manufacturers being in violation of section 33699, revised statutes, are hereby rescinded."

INTERNECINE QUARRELS

Between the K. of L. and the American Federation of Labor.

Washington, April 1.-The bureau of engraving and printing is all torn up by an internecine war that is raging between the K. of L. and the American Federation of Labor. Secretary Hayes, representing the Knights of Labor, called on Secretary Foster the other day and presented the knights' side of the question and yesterday a delegation of plate printers from the bureau of en-graving, members of the American Federation of Labor, had an audience with Secretary Foster in which they pre-sented their side of the question. The trouble grows out of the employment in the bureau of certain men alleged at one time to have belonged to the knights and who are now members of the American Federation. Secretary Foster is vexed over labor troubles of this characr confronting him on the very thresh-· old of his entrance into office.

A Little Girl's Experience In a Light-

Mr. and Mrs. Loren Trescott are keepers of the Gov. Lighthouse at Sand Beach, Mich., and are blessed with a daughter, four years old. Last April she was taken down with Measles, followed with a dreadful Cough and turning into a Fever. Doctors at home and at Detroit treated her, but in vain, she grew worse rapidly, until she was a mere "handful of bones." Then she tried Dr. King's New Discovery and after the use of two and a half bottles, was completely cured. They say Dr. King's New Discovery is worth its weight in gold yet very may get a tried. veight in gold, yet you may get a trial ottle free at Durbin, Wright & Co's.

Horse Thieves at Work. A horse, the property of Joseph Copen-ver, was stolen from his barn near Nare Saturday evening. The horse wes aluable one and Mr. Copenhaver at s instituted a search. The horse was id yesterday by two farmers in Pike whip. The horse thief had thought rof the matter and turned the ani-
